ATA RANGI
·MARTINBOROUGH·

Environmental Policy Statement

Company Outline

Ata Rangi Ltd is a family owned and operated company which produces wine from grapes grown predominantly in the Wairarapa. We crush ~250 tonnes of grapes grown by ourselves and under contract.

Our wines are sold by mail order, at the cellar door gate sales, through our NZ distributor Eurowine (restaurant and retail) and exported to 24 markets, the principal ones being Australia, UK and USA.

All grapes are processed on site at our winery on Puruatanga Road, Martinborough with all by-products being disposed of on site or under controlled conditions at the Local Authority landfill.

Company Environmental Aims

It is Ata Rangi Ltd's aim to use viticultural and winery practices which enhance, or minimise any impact on, the environment, as well as minimising any impacts resulting from winery waste and packaging, while producing fruit and wine of premium quality. This requires continuous monitoring of current practices and adjusting these where appropriate.

We the directors make a commitment to continuously monitor and comply with all relevant environmental legislation and regulations, as well as any other environmental requirements as required by any groups or organisations of which we are members, such as Sustainable Winegrowing New Zealand.

As part of our environmental management (ISO 14001) system, we the directors have instituted an ongoing system for identifying, setting and reviewing environmental objectives & targets.

The environmental management system is an integral part of the day to day running of the business and thus is documented, implemented, maintained and communicated to all employees on a daily basis.

A copy of this policy is kept on public display in the winery sales area. The public will be made aware of the existence and availability of this policy in our 'point of sale' information and website (www.atarangi.co.nz).

Signed

(The Directors)
